

STORMWATER EROSION EDUCATION PROGRAM (SEEP)

PRE CLASS SURVEY

Please complete the survey below and submit with your class registration. Your cooperation will help us to better evaluate the class design and its effectiveness. Do not be concerned if you cannot answer all the questions, you will by the end of the SEEP course.

1. How many forms of erosion can you name? (example: raindrop)

2. Which state or federal agency has primary enforcement responsibility for the National Pollutant Discharge Elimination System Permit (NPDES)? (Check one)

- Idaho Department of Environmental Quality
- Environmental Protection Agency
- Panhandle Health District
- Idaho Department of Water Resources
- Idaho Department of Lands

3. Number in order soil types from most (1) erodible to least (4) erodible.

- Gravel
- Silt
- Clay
- Sand

4. What do the following acronyms mean?

- ESC _____
- SWPPP _____
- BMP _____

5. Which should be your primary concern: erosion control or sediment control?

6. At what point during construction should erosion control begin?
