

Speakers

Ben Kappen is a Division Manager for Northwest Plant Health Care. He is an ISA Certified Arborist, a Certified Tree Risk Assessor, and a landscape designer. He has an in-depth knowledge of diagnosing tree and shrub pests.

Jill Blake is owner of Mother Nature Landscape Design. Before launching her own business she worked for the U.S. Forest Service and two local design companies. She holds degrees from Boise State University in Horticulture and Botany and a Landscape Design degree from the University of Idaho.

Chris Boza, Community Forester for the City of Hayden, Idaho, has been in the arboriculture field since 1977. He is a Certified Arborist and a Certified Municipal Arborist.

Rick Graham is Branch Manager for Ewing Irrigation. He started in the landscape industry in 1984. He migrated to wholesaling irrigation/landscape products with Hydro-Scape products, John Deere, and now Ewing Irrigation.

Chris Hilgert is the Urban Horticulture Educator for Washington State University Extension in Spokane County. Chris received B.S. and M.S. degrees in Horticulture from Oregon State University where he studied Turf and Landscape Management.

Joe Zubaly is the founder and president of Northwest Plant Health Care and has eighteen years of experience in the field. He is a Certified Arborist and loves trees!

Workshops are sponsored by **Community Canopy**

a tree care partnership program of the cities of Post Falls, Hayden, Coeur d'Alene and the Spokane County Conservation District, in cooperation with the University of Idaho Extension and the Washington State University Extension.

Helping Trees Thrive

*Two Workshops for
Turf and Landscape
Care Providers*

**Pest Management &
Prevention**

Trees & Turf

Friday, March 19, 2010

Sponsored by

Friday, March 19th
Pest Management and Prevention
Trees & Turf

Who should attend: These workshops are designed for anyone who supervises or performs any kind of turf or landscape maintenance activities. This includes in-house grounds maintenance crews and landscape contractors, as well as volunteers who assist with maintaining church grounds, subdivision plantings or parks, or any other community landscaping.

What will be offered:

- Practical information from qualified speakers on the listed topics;
- Brochures and publications relating to the workshop subjects;
- Continental breakfast 1/2 hour before morning workshop;
- Lunch will be provided to those who register for both workshops.

How to Register: There is limited space, so please pre-register by filling out and returning the attached form by 5:00 p.m., March 17th.

Cost: There is a \$10 registration fee per person per workshop. Checks should be made out to the City of Coeur d'Alene.

Location: The Trailhead building at Q'emiln Park in Post Falls.

More detailed directions will be sent upon registration.

Pest Management & Prevention
Friday, March 19
9:00 a.m. to 12:00 p.m.
Trailhead Building - Q'emiln Park, Post Falls

Ben Kappen of Northwest Plant Health Care will cover the basic methodology for diagnosing tree and shrub problems and the responsible selection and use of pesticides. The first line of defense in control of insects and diseases is taking preventative steps to keep trees and shrubs healthy and pest free. Ben will also provide information on understanding and applying cultural practices toward this end.

Trees & Turf
Friday, March 19
1:00 p.m. to 3:45p.m.

Trailhead Building - Q'emiln Park, Post Falls

Trees and turf are considered essential elements of most home landscapes. However, it can often be a challenge to have both thrive in close proximity as they compete for water, sunlight, and space.

Five speakers will cover different aspects of the tree and turf equation:

- An overview of tree & turf needs and challenges;
- Providing trees with protection from turf care equipment;
- Ground covers that thrive in shade;
- Managing irrigation zones and irrigation delivery methods for trees and turf;
- Some soil compaction treatments.

Community Canopy has applied for **ISA Continuing Education Units** for both of these workshops and state pesticide credits for the morning workshop.
